

Join with other child care workers - be a BCGEU Special Associate Member!

Child care workers just like you are advocating for a better child care system.

You know the importance of early childhood education in a child's development. You see first-hand how children and families benefit from dependable, quality child care. You know how desperate families are for quality child care they can afford.

So do we.

As the representative of more child care workers than any other union in BC, we work with our members, employers, parents, child care providers and advocates to improve working conditions for workers and accessibility for families.

We are working in partnership with the Coalition of Child Care Advocates of BC to bring the **Child Care - Let's Make It Happen!** campaign to every community in the province.

Thousands of British Columbians, including early childhood educators, parents and community leaders, are joining town hall meetings, rallies, stroller parades, presenting resolutions to municipal councils and visiting MLAs and MPs to press for political solutions.

It's going to take all of us—working together in partnership—to achieve a universal child care program that meets the needs of families, workers and communities.

You can help by becoming a Special Associate Member of the BCGEU.

There's no fee, and you'll have access to a wide range of resources offered by the BCGEU.

Most importantly, you'll be joining with other child care workers and advocates in a province-wide campaign to put children and families first!

Special Associate Member

Become a BCGEU Special Associate Member!

YES! I want to be a BCGEU Special Associate Member

Are you already a member of a union? Yes No

Name: _____

Phone: _____

Address: _____

Postal Code

Email: _____

Get connected with a larger community!
And, as a BCGEU special associate member,
you receive information, education, support,
networking resources and other benefits!

- **workshops** on workers' rights, health and safety, career development, advocacy and lobbying strategies, or related issues. Some of these educationals may be used towards professional ECE certification requirements;
