

1.0 Purpose

- 1.1 To establish a comprehensive program regarding _____ exposure in the work place.
- 1.2 The program is designed to protect the health of all employees and ensure that employee exposure to _____ does not exceed the exposure limits (EL) listed in Table 5-4 of the Occupational Health and Safety Regulation.

Substance	8-Hour EL	15-Minute EL	Ceiling EL	Designation

2.0 Scope

- 2.1 This _____ Exposure Program shall be used at the _____ to ensure that all employees and non-employees are effectively informed concerning the cobalt exposure while performing their duties.

3.0 References

- 3.2 WCB Regulation 5.48 through to 5.59
- 3.3 Personal Protective Equipment Program
- 3.4 Material Safety Data Sheets for _____, _____, _____

4.0 Definitions

- 4.1 _____
- 4.2 _____

5.0 Responsibilities

- 5.1 _____ trains and communicates the policy on _____ exposure to all employees; maintains a record of all training; performs hazard assessment; and conducts air quality testing including air sampling in conjunction with appropriate personnel.
- 5.2 _____ are responsible for implementing the program and ensuring that good work practices are being used.
- 5.3 Managers, supervisors and employees must be held accountable for their program responsibilities.

6.0 Procedure

- 6.1 A walk through survey shall be performed to assess the potential for overexposure to _____. This survey will be performed by knowledgeable personnel and should take into account all routes of exposure including inhalation, ingestion and skin contact. Reassessments will be conducted when there is a change in work conditions which may increase the exposure such as a change in production rate, process or equipment.
- 6.1.1 Air quality testing to reliably determine worker exposure must be performed to when a workplace assessment indicates that workers may be exposed to _____. Baseline testing must be performed on all processes and then periodically thereafter.
- 6.1.1.1 In areas where the air quality tests show that _____ levels are unacceptable, engineering and/or administrative controls must be implemented promptly.
- 6.1.1.2 The use of personal protective equipment as the primary means to control is permitted only when; engineering or administrative controls are not practicable.

7.0 Records

- 7.1 Air sampling tests results
 - 7.1.1 _____ Exposure Acknowledgement training for all employees.
 - 7.1.2 Lung capacity tests results.
 - 7.1.1.1 Employees required wearing the respirators/dust masks. Respirator training (including maintenance, storage, fit check and where applicable cartridge change out) and fit test records.
